

The AI Executive Summary

Jason Sakr

Global Head of Data, AI, Security

jason.sakr@exquitech.com

Strategy, trust, and risk all depend on readiness

Market leaders are
investing now

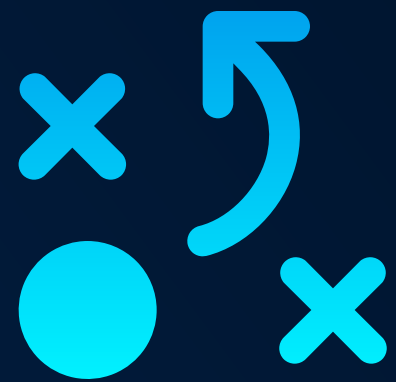

Governance is under
growing scrutiny

Delay creates operational
risk

AI readiness is more than technology

Strategy
alignment

Data quality

Risk management

Talent

Governance

Missteps are expensive; delay is worse

Rushing to scale with no internal alignment —————→ **wasted budget**

Skipping governance or legal review —————→ **audit and trust issues**

Assuming data is “ready enough” —————→ **stalled adoption**

A simple phased plan to get started

Expert guidance
